[Prajjwal's Portfolio \(prajjwal-dev.github.io\)](#) (my portfolio)

I am a highly motivated and driven student with a passion for **DSA (Data Structure and Algorithms)** and **AI(Artificial Intelligence)**, aiming to apply these skills to streamline processes and increase efficiency in various projects and environments. My academic journey has instilled a strong foundation in **Software and Web Development**, and I am eager to continue learning and honing my expertise. With a proactive approach and a dedication to continuous improvement, I am always looking for opportunities to tackle new challenges, expand my technical knowledge, and contribute to innovative solutions. I am committed to personal growth and excited to further develop my skills in a dynamic and fast-evolving field.

Education

KIST College of Information Technology | Bachelor's in Information Technology
Kathmandu, Nepal | 2023 - Present

- Currently pursuing a degree in Information Technology.

Orient College | Class 12 (Computer Science and Management)
Kathmandu, Nepal | 2023

- GPA: 3.85/4.00 | Topper of College
- Relevant Subjects: Computer Science, Management

Angels' World International Academy | Secondary Education Examination (SEE)
Kathmandu, Nepal | 2021

- GPA: 4.00/4.00 | Topper of School
- Relevant Subjects: Optional Mathematics, Computer Science

Skills

Multilingual (Nepali, English & Hindi) • Effective communication • Active listening • Adobe Photoshop • WordPress • Excel • JavaScript • Git • C & C++ • HTML & CSS • PHP • Python • Unity • C# • Blender • GitHub • DSA • AI • SQL • Figma • Chess

Projects

- **Smart_Traffic_Management_System**
Awarded the **Gold Medal** at the **Imageneering Competition** during KIST Fair, this project optimizes traffic flow using real-time data and intelligent traffic light systems. It leverages sensors and AI algorithms to reduce congestion, improve emergency vehicle routing, and enhance overall road safety.

- **Hamro_Canteen**

Developed as part of the **KIST Hackathon**, Hamro Canteen is a smart, automated canteen management system designed to streamline food ordering, inventory tracking, and payment processing. This innovative solution improves efficiency and customer experience in educational institutions.

[Link: [Andipstha/khukuri coders](#)]

- **CipherPayroll**

A robust payroll management system created for the **BIT project**, CipherPayroll integrates seamlessly with HR and accounting systems, ensuring accurate employee payments and deductions. It features secure data handling, tax calculations, and a user-friendly interface for ease of use.

[Link: [Prajjwal-dev/CipherPayroll](#)]

- **Python_Projects**

Built using Python, this project collection includes a variety of applications such as a **QR Code Generator**, **Password Generator**, **Calendar**, and **Weather Forecasting**. Each project offers flexibility in customization and functionality, enabling users to generate QR codes for various applications, create secure passwords, manage their schedules, and obtain real-time weather updates. This diverse set of tools showcases the versatility of Python in solving everyday problems and enhancing user experience.

- **PM Kitchen Chaos**

A large-scale game developed over a long period using **C# and Unity**, PM Kitchen Chaos is an engaging and fast-paced cooking simulation. Players manage a virtual kitchen, handle customer orders, and juggle multiple tasks, all while facing escalating challenges in a competitive gaming environment.

[Link: [PM Kitchen Chaos by Prajjwal-dev](#)]

- **Memory Match Game & TicTacToe**

These fun and interactive games were developed using **HTML, CSS, and Python**. The **Memory Match Game** challenges players to find pairs of matching cards, while **TicTacToe** offers a classic gameplay experience with a clean and intuitive interface. Both games focus on logic, strategy, and user engagement.

Interests

- **LeetCode Solver** (enjoy solving coding challenges and improving algorithm skills)

[Link of leetcode Profile: [Prajjwal-dev - LeetCode Profile](#)]

- **Playing Chess** (strategic thinking and problem-solving through games)
- **Traveling** (exploring new cultures and places)
- **Coding** (designing and developing applications to solve real-world problems)
- **Watching Soccer and Cricket** (avid fan of both sports)

- **Gaming** (passionate about various gaming genres and platforms)
- **Making YouTube Content** (creating videos to share knowledge and experiences)
- **Solving Rubik's Cube** (enjoy tackling challenges and improving dexterity)
- **Making Animations and Using Photoshop** (exploring creativity through digital design)
- **Watching Movies** (appreciating storytelling and cinematography)
- **Learning New Languages** (committed to personal growth and communication)
- **Interactions with New People** (valuing diverse perspectives and building connections)
- **Making Projects** (engaging in hands-on experiences to apply knowledge)

Accomplishments

- **Gold Medalist** in the **Imageneering Competition** at KIST Fair, showcasing innovation and project excellence.
- **Collaborated** on the **Hamro Canteen** project during the KIST Hackathon, working alongside numerous seniors to develop a smart solution for food management.
- **Gold Medal** in **Chess** during Class 12 at Orient College, demonstrating strategic thinking and competitive spirit.
- **Consistently improving** skills in **LeetCode**, **Data Structures and Algorithms (DSA)**, and **Artificial Intelligence (AI)**, actively upscaling my rank on the platform.
- **Outstanding Academic Performance**, recognized for dedication and excellence in studies throughout my educational journey.
