I am a **Bachelor's in Information Technology (BIT)** student in **Nepal** passionate about building practical and scalable software solutions. I have a strong foundation in **programming, data structures, and algorithms**, and enjoy creating full-stack applications that solve real-world problems. I have applied my skills in projects such as **Hamrocanteen, Smart Traffic Management System, and CipherPayroll**, and I am eager to explore **Artificial Intelligence and Data Science** while continuously expanding my technical expertise and problem-solving abilities.

Education

KIST College of Information Technology | Bachelor's in Information Technology
Kathmandu, Nepal | 2023 - Present

- Currently pursuing a degree in Information Technology.

Orient College | Class 12 (Computer Science and Management)
Kathmandu, Nepal | 2023

- GPA: 3.85/4.00
- Relevant Subjects: Computer Science, Management

Angels' World International Academy | Secondary Education Examination (SEE)
Kathmandu, Nepal | 2021

- GPA: 4.00/4.00
- Relevant Subjects: Optional Mathematics, Computer Science

Skills

Programming & Development:

- Java, Python, C, C++, JavaScript, Dart, C#
- HTML, CSS, PHP, SQL

Frameworks & Libraries:

- Spring Boot, React.js, Flutter, Android Studio, Unity, WordPress, React Native

Tools & Version Control:

- Git, GitHub, Git Bash, Figma, Adobe Photoshop, Blender

Concepts & Domains:

- Data Structures & Algorithms (DSA), Artificial Intelligence (AI), Full-Stack Development

Languages

- Nepali (Native), English (Fluent), Hindi (Fluent)

Experience

➤ **Organizing Member – KIST HackFest 2082** | KIST College, Kathmandu, Nepal

Date: July, 2025

- Assisted in planning and coordinating a college-level hackathon event, managing logistics, schedules, and participant engagement.
- Collaborated with a team of organizers to ensure smooth execution of competitions and workshops.

➤ **Lead Organizer – UI/UX Competition** | KIST College, Kathmandu, Nepal

Date: July, 2025

- Led the organization of a UI/UX design competition, from planning the event to overseeing submissions and judging.
- Coordinated with participants, mentors, and judges to ensure a professional and engaging competition experience.

➤ **Trainer – Basics of Python Programming** | IT Training Camp, KIST College, Kathmandu, Nepal

Date: February, 2025

- Conducted a workshop on fundamental Python programming concepts for students and beginners.
- Designed exercises and practical sessions to enhance understanding and hands-on skills.

Projects

• **Smart_Traffic_Management_System**

Awarded the **Gold Medal** at the **Imageneering Competition** during KIST Fair, this project optimizes traffic flow using real-time data and intelligent traffic light systems. It leverages sensors and AI algorithms to reduce congestion, improve emergency vehicle routing, and enhance overall road safety.

[Link: <https://github.com/Safal-Shrestha/traffic-management>]

• **Hamro_Canteen**

Developed as part of the **KIST Hackathon**, Hamro Canteen is a smart, automated canteen management system designed to streamline food ordering, inventory tracking, and payment processing. This innovative solution improves efficiency and customer experience in educational institutions.

[Link: https://github.com/Andipstha/khukuri_coders]

- **CipherPayroll**

A robust payroll management system created for the **BIT project**, CipherPayroll integrates seamlessly with HR and accounting systems, ensuring accurate employee payments and deductions. It features secure data handling, tax calculations, and a user-friendly interface for ease of use.

[Link: <https://github.com/Prajwal-dev/CipherPayroll>]

- **TransferMaster**

Step into the world of smart football analytics with TransferMaster — a powerful, data-driven tool designed to predict player ratings and transfer market values. Using advanced performance statistics and real-time market trends, TransferMaster delivers accurate insights to help you make informed decisions in the world of football scouting, fantasy leagues, or game development.

[Link of TransferMaster: <https://github.com/Prajwal-dev/TransferMaster>]

- **BQI (Bike Quality Index)**

A data-driven project designed to evaluate and compare bike quality based on multiple performance and specification factors. By analyzing attributes such as engine capacity, mileage, and features, BQI generates a comprehensive score to help users make better comparisons and decisions.

[Link of BQI: <https://github.com/bipin-thapa01/fair-2026>]

- **Yatra-Z**

A travel and tour management platform designed to simplify trip planning and booking. It allows users to explore destinations, view travel packages, and manage bookings through an organized and user-friendly interface.

[Link of Yatra-Z: <https://yatraz.infinityfreeapp.com/?i=3>]

- **GateGuard**

A smart security and visitor management system designed to streamline entry monitoring and access control. It enables efficient tracking of visitors and improves security management through a structured and user-friendly interface.

[Link of GateGuard: <https://github.com/Prajwal-dev/GateGuard>]

- **QuickMart**

A simple e-commerce platform designed to streamline online shopping and product management. It allows users to browse products, manage carts, and simulate a smooth purchasing experience through a clean and user-friendly interface.

[Link of QuickMart: <https://github.com/Prajwal-dev/QuickMart>]

Accomplishments

- **Gold Medalist – Imogeneering Competition**, KIST Fair, for innovative project development.
- **Gold Medal – Chess Competition**, KIST College (BIT) and Orient College (Class 12), demonstrating strategic thinking and competitive excellence.
- **Workshop Instructor – IT Training Camp**, KIST College, conducted a session on the fundamentals of **Python programming**.
- **Organizing Member – KIST HackFest 2082**, contributed to planning and coordinating a college-level hackathon event.
- **Hackathon Participant – KIST Hackathon**, collaborated on the *Hamro Canteen* project to develop a smart food management solution.
